Tier 1, unlimited, all clients

Continuous M365 Monitoring

alerts, remediation, optimization

Seamless Integration

enhances Outlook, Teams, Defender

Ironscale's vs. Traditional SEGs: Why Better?

Ironscale's outperforms gateways with **Adaptive AI + Human Intelligence**.

Detects BEC, ATO, and evasive phishing that SEGs miss.

Feature	Traditional SEG	Ironscale's + M365
Deployment	MX Changes (Disruption)	API in Minutes
Detection	Static Rules	AI + Community Intel
Remediation	Manual	Automated + Simulations
User Training	Separate Tool	Built-In, Personalized
Analyst Recognition	Basic	Gartner Rep Vendor; Forrester AI Leader

Proven in Microsoft Environments

«Fastest detection/response in market.» (Gartner/Forrester insights)

Works tandem with M365 Defender—closes gaps instantly.
